

Arrival and Departure of Mails.

Eastern and California Mail arrives at 11:30 a. m., and closes at 12:30 p. m.
Pinal, Globe and Silver King Mail arrives at 12 m., and closes at 12:15 p. m.

Office Hours—From 9 a. m. to 1 p. m.; from 1:30 p. m. to 5 p. m., and from 6 p. m. to 7 p. m. Sundays from 11 a. m. to 3 p. m.

Home News.

The ENTERPRISE wish its readers a Merry Christmas.

Mrs. J. V. Wilson has been seriously ill for some time, we are sorry to learn.

Toys, Albums and a full line of Holiday Goods at Ochoa's.

Mr. Louis Cox is again doing the agreeable in the office of the Silver King hotel.

Hon. A. J. Doran and Dr. Davis, of Butte, were registered at the Silver King this week.

Salmon Bellies, Figs Feet and Saus. Kraut, in bulk, at Smith & Murray's.

Judge Benson, of Pinal, was here this week to attend the meeting of the Town-site commissioners.

In order to give our force an opportunity to celebrate New Years, we will issue only a half sheet next week.

The town site commissioners met, Thursday, and adjourned to Jan. 15th, 1883, at 10 o'clock a. m.

Buy a set of Majolica Ware for a Christmas present to the ladies, at Ochoa's.

Messrs. Taylor and Harris built a handsome new awning around Mr. J. M. Ochoa's business block this week.

A pint of the finest ink for families or schools can be made from a ten-cent package of Diamond Dye. Try them.

Standard Patent Medicines, Salves and Liniments. Paints and Oils at Ochoa's.

Wm. Tweed, jr., of Dripping Springs, was in town this week and reports everything lovely at the bonanza copper camp.

Fine lot of Ladies' Misses' and children's zephyr shawls, rubias, jackets and hoods—at J. B. Michels's.

Col. Ruggles is making sundry improvements on his residence, which add to the comfort and convenience of the place.

Cutlery, Silver Plated Knives and Spoons, Plated Children's Sets at Ochoa's.

Mr. W. A. Lattin, one of the town-site commissioners, came down from Dudleyville this week to attend a meeting of the commission.

A car load of Potatoes and Onions just received at Smith & Murray's.

If all the persons who are making preparations should attend the masquerade ball Christmas evening, the affair will be a grand success.

Mat Caveness, of Pinal, whose arm was broken recently by a fall from a buggy, is still confined to his bed at the Baldwin house, San Francisco.

Fresh, Pure and the Best, are the three combined qualities of Groceries at the store of J. M. Ochoa.

Supt. Stevens, of the Arizona and Texas Stage Company, went up to Pioneer, Friday, to look after the work on the Globe and Florence road.

Messrs. Frank Shield and Frank Bernard came down from the San Pedro country Monday, and will spend the holidays in this part of the county.

Remember that J. B. Michels, in trade, for cash, receive Mexican dollars for \$1 and American dollars for \$1.10.

Attention is invited to the "Notice of Removal," of J. M. Ochoa into his new quarters. He has a magnificent stock of goods and they show up well in his new store.

Great and nice assortment of ladies' and misses' trimmed hats—at the Lone Star Store.

Messrs. Smith & Murray, have received their stock of holiday goods, which consists of a very large and complete assortment. Their team brings in new every day or so.

Mrs. Gus Schamp, of Butte, is spending the week in the "prettiest town in the Territory," as the guest of Mrs. Henry Schoshusen. She will attend the masquerade in costume.

Enjoy life while you can and smoke Rosa Bonnet, Castina, Viteor, Key West and Habana cigars at Ochoa's.

Another three foot vein of fine bituminous coal has been struck in the Deer Creek coal fields, according to report. It was tapped by a drift at the bottom of one of the old prospect shafts.

Just received at J. B. Michels's store—crocker and glassware.

The Pinal Consolidated furnace will be restarted on the 1st. Everything is in readiness for the start now, but Prof. Arnet, the smelter has not arrived yet. There is no doubt as to the furnace being a success now.

Early Rose Seed Potatoes at Smith & Murray's.

Mr. Geo. Taylor has gone to Butte to accept the position of boss carpenter with the Pinal Consolidated Company. There are no better mechanics than George. He did the woodwork on the Jessie Benton mill and it cannot be excelled.

Hayden's choice Family and Graham Flour at Smith & Murray's.

Two Chinese charcoal burners from Truck arrived here Thursday and went up to Butte to burn coal for the Pinal Consolidated and a man from Colorado will be here soon to take charge of the work.

Last Saturday John McCoy brought down from Pinal another boarder for the hotel de Gabriel. The fellow had sold McCoy a lot of stolen horses and the latter discovered the fact before the thief could make his escape.

Mr. Samuel Linkton, one of the heavy owners in the Pinal Consolidated, was here this week taking a look at the company's property and was well pleased with the management of affairs at Butte. He went hence to New Mexico on mining business.

Mr. Josiah Champlin, of Pinal, was here this week. In addition to his large general lumber trade, he has a contract to furnish the Silver King company all the timber and lumber they use at their mill and mine. It has amounted to over one million feet this year.

Mr. W. R. Stone, of Pinal, and Supt. Elmore, of Hastings, were here this week looking after some copper claims located about ten miles above town and owned by Messrs. Stone and Graham. They have just completed their assessment work on the claims and have a good showing of ore.

Jose Hardesty and Adolph Neimann came down from the Saddle Mountain district, Monday, having completed the annual assessment work on their properties in that district. The mines are looking well and capitalists desiring good investments should not overlook them any longer.

Edward Lanous completed the assessment work on the Gray Wolf, at Mineral Hill, this week. He drove the tunnel in 15 feet further and has not reached the foot-wall yet. This tunnel shows mineral from face to breast and carries both gold and silver in paying quantities. It is a fine property.

"Necessity is the mother of invention." Diseases of the liver, kidneys and bowels brought forth that sovereign remedy Kidney-Wort, which is nature's normal curative for all those dire complaints. In either liquid or dry form it is a perfect remedy for those terrible diseases that cause so many deaths.

Mr. R. A. Davis, representing Spruance, Stanley & Co., of San Francisco, was here this week, making himself agreeable with the boys and taking orders for the fine wines, liquors and whiskies which that firm import. By the way this firm is the most reliable one, handling liquors in San Francisco.

Ben. Hall, of the Grand Hotel, Pinal, was here this week, returning from Casa Grande, whither he went with some passengers. The Grand is under the management of Mrs. Hall, and no one knows how to make a hotel attractive better than she. The rooms are kept as neat as pins and the tables are provided with clean, well seasoned and well cooked edibles.

The mercantile business, left by Joseph Collingwood, will, we understand, be continued under the management of Judge J. W. Anderson, administrator and guardian. The Judge is a fine business man and under his superintendence the business will prosper and yield a handsome return on the capital invested. The estate could not have been left in the hands of a more capable and reliable man.

The Rev. Mr. Adams, presiding elder for the district of Arizona, held services at the Court House last Sabbath evening. He is the first worker in the Methodist vineyard who has undertaken to spread the gospel in this section. We understand he has made arrangements to send a minister along this way about once a month and there is some talk of organizing a Sabbath school.

Both Lydia E. Pinkham's Vegetable Compound and Blood Purifier are prepared at 233 and 235 Western Avenue, Lynn, Mass. Price of either, \$1. Six bottles for \$5. Sent by mail in the form of pills, or of lozenges, on receipt of price, \$1 per box for either. Mrs. Pinkham freely answers all letters of inquiry. Enclose three cent stamp. Send for "Guide to Health and Nerve Strain."

Samuel Bostie has moved into his new quarters which have been provided with a complete new set of furniture and fixtures, and now has as neat a tonorial establishment as can be found in Arizona. And this new establishment has caused Sam to become an anti-monopolist. The freight on his new furniture was from St. Louis to Denning, about 1200 miles, \$3; from Denning to Casa Grande, 280 miles \$30.

We learn from Postmaster Henry, of Cottonwood, that Foreman Fish has started a new inclined shaft on the Specie Paying ledge. It is his intention to connect this new shaft with the drift at the bottom of the present working shaft. This will serve the double purpose of showing the character of the ledge all the way down from the croppings to a depth of 240 feet and establishing ventilation. In the meantime work will be continued in the old shaft and the tunnel.

Mr. Aaron Mason bought the delinquent stock of the Montezuma Ditch and Canal Company, sold last Saturday to pay assessments. This gives him a controlling interest and he will have the ditch extended to his Banner Ranch, below Florence and will probably change the course of the ditch so as to make it available for irrigating a large block of mesa land that could not be watered should the canal be carried through on the line of the former survey.

When the buckboard came in from Pioneer, Thursday morning, there was considerable snow sprinkled over the baggage and the driver reported a heavy snow fall at Pioneer and Globe. All our neighboring towns are visited by snow storms, but Florence always escapes. As near as the snow ever gets to us is on the high lands north of the river and about two miles from town. Our's is a summer climate.

If parties coming to the city will persist in falling into the numerous dens calling themselves by different "Uncles," and find after purchasing that they are swindled, it is their own fault. Take the little trouble to see Uncle Harris' name painted on the windows of his store. Go first and see him, get his guarantee (written), and you will find that you bought any article for half store prices. Remember the number, 221 Kearny, between Bush and Sutter.

A fresh lot of Garden and Flower seeds at Smith & Murray's.

Casa Grande is thriving. Two blacksmith shops are added to the business of the town. The solitary little Mexican of a few months ago now has about twenty companions, and a school house has been erected for their intellectual development. Casa Grande proposes to make an effort for the Sunlight road, having, over Pinal, the advantage of an already flourishing southern trade. Al Richeson's hotel and saloon flourish. He is coming over in about a week.—Phoenix Herald.

Mr. Aaron Mason received another car load of thoroughbred naves and a young stallion from San Francisco this week. Four of the naves have as fine pedigrees as any on the Pacific coast and they are also fast trotters. One of these animals is valued at \$1000 and the others at \$500 each. The horse is valued at \$1000 and is only a two year old. Mr. Mason is doing a great deal for the blooded stock interest of this section and deserves to succeed. His stable shows a fine collection of horses now.

The traveling public will find at the Silver King hotel, of Silver King, first-class accommodations and a table that is always supplied with palatable edibles. Mrs. O'Boyle gives her personal attention to the culinary department and being a perfect master of the cuisine art, the meals at the Silver King are always tempting to the appetite. Mr. Wm. O'Boyle, the genial proprietor, understands making his guest comfortable and makes a visit to his hotel a genuine pleasure. He is arranging to give a dance in the dining room of his hotel Christmas evening and we predict, in advance, that it will be a grand success.

A tramp entered Charles Tillman's residence Wednesday night, and commenced to undress with the intention of going to bed. But little Ella Nesbit, who was sleeping in the room at the time awoke and ordered the intruder to take his departure. He replied by threatening to kill her if she should scream, but the threat did not intimidate her and she screamed as loud as she could. Her cries aroused Mrs. Tillman and when the latter commenced calling to her husband the tramp decamped, leaving his hat and a belt behind. An hour or so later the rascal returned and tried the door again, but hearing a noise inside the house took to his heels. It would be a good idea to organize a vigilance committee here to take care of tramps and keep them moving along when they strike this place.

We desire to call attention to the advertisement in another column of D. M. Ferry & Co., Detroit, Mich., the great seedsmen, whose mammoth establishment is one of the sights of the chief city of Michigan. They do the largest business in their trade in the United States, reaching even across the Atlantic and Pacific oceans. The house is entirely reliable, and if you wish to get exactly what you order, you cannot do better than to send to them for your seeds, and you may depend upon it you will get the best that the market can supply. Their seeds have become known over the entire civilized world for purity and fertility, and have gained for them an enviable reputation. Their Annual Seed Catalogue just issued for 1883, replete with information and beautifully illustrated, will be sent free on application.

Thursday a large flock of buzzards was observed circling above the road leading from Pinal here. It was such an unusual sight that it attracted the attention of a great many and finally caused a large crowd to gather on the street. As the crowd watched the birds of carrion gradually drew nearer the town and it was noticed that a cloud of dust was rising beneath them, indicating they were following something that was moving along on the ground. "What can it be?" queried the anxious people. No one could explain the mystery till finally a gust of wind cleared the dust away and revealed a rapidly approaching figure. "Reymont! by g—d," shouted some one, and so it was, the veritable bowels of the Seill. The warm sun of the desert had heated him up and the aroma from the putrid carcass had been scented by the buzzards far and near. If he had had two miles further to go they would have taken him in.

Rogers Mining District.

This district is about 15 miles north from the town of Pinal and about 12 miles from the Silver King mine, and is being rapidly brought into notice on account of the recent developments and discoveries which demonstrate beyond a doubt that the various mines are as meritorious as their owners have represented them to be.

During the past few months there has been considerable work done and the shipments of ore from the Snapp mine to

San Francisco show conclusively that mining is a paying business. This mine, owned by Messrs. Stone, Goodfellow and Tolles, has a shaft to the depth of seventy feet following the ledge, in which the pay streak widens from 10 inches at the top to 2 feet at the bottom of the shaft. The character of the ore is chlorides and carbonates, with a mixture of fahlore, a shipment of which gave an average of over \$200 per ton.

Adjoining the Snapp mine and on the same ledge, is the Chloride King, owned by Messrs. Geunon and Pickering, on which is a shaft of 40 feet, from which is taken ore that goes high up into the hundreds. The ore is of the same character as that of the Snapp; in fact all the ore of the district is similar in quality.

The Robin, owned by Messrs. Broerman, Geuninger and Hall, has a shaft to a depth of 80 feet, from the bottom of which is taken black sulphurets of silver and fahlore in a gangue of white quartz and porphyry. The ore from this mine will give an average of \$150 per ton.

The Silver Chief, Worldbeater and Manhattan are valuable properties and quite extensively developed by shafts and tunnels and there have been large shipments of ore from these mines with profitable results to the owners, Messrs. Broerman and Geuninger.

Access to this district is by way of Pinal, from which place a good road and trail leads to the camp. The advantages for mining and milling are unsurpassed by those of any other section of the Territory, as the climate is cool and delightful, the elevation being about 5000 feet above the sea level. An abundance of timber for mining purposes and fuel is to be had in the immediate vicinity, the surrounding hills and mesas being covered with forests of oak and cedar, while cottonwood grows plentifully in the ravines. The miners of this section need only reduction works to make them the most independent people on earth, and with the present development of their mines, they can offer good inducements for their erection of a mill. There is a large spring within a mile of the mines, and easy of access, that has a flow of water sufficient for a 10 stamp mill, and never failing, while during the greater part of the year there is a good supply of water in the creek flowing through this district to Salt River. Taking into consideration the natural advantages that the Rogers district possesses and the richness of its ore we predict for it a prosperous future.

DEEDS.

J. D. Reymont to Terra Rica Mining Company all the following described mines: The Norway, Scotland, Ohio, Wisconsin, Maria Jane, Reymont and the Grandfather, situate in Pioneer district, \$25,000.

Noah Emerrick to Michael Jennings, interest in the Bullion mine, Pioneer district, \$500.

LOCATION NOTICES.

Idaho mine, situated Old Hat district, by M. L. Calhoun, Geo. W. Bemenderfer, Sam. A. Pearson and Jas. S. McCoy.

Minnesota mine, Intervenor mine and Echo mine, same district and same locators.

Diablo mine, 10 m. n. w. from Pinal, by Yese Lopez, Priscilian Gomez and J. D. Reymont.

Crazy Jane mine, in Old Hat district, by M. L. Calhoun, Geo. W. Bemenderfer and Sam'l A. Pearson.

Dutch George mine, in Old Hat district, by the same locators.

Champion Mine, in Riverside district, by Otto Schetter, David W. Carriger, William W. Carriger and W. E. D. Scott.

Sultan mine, Unknown district, by John Gundall, August Zeller and P. C. Haley.

Juno mine, 3 1/2 m. s. w. from Gila crossing, by same locators.

Sirius mine, 3 1/2 m. from Gila crossing, by same locators.

Brunar mine, 2 1/2 m. from Gila crossing, same locators.

Black Prince, Estrellas mountains, by same locators.

Saturn mine, 3 1/2 m. from Gila crossing, same locators.

Uranus mine, 3 m. from Gila crossing, same locators.

Herkules mine, 2 1/2 m. from Gila crossing, same locators.

St. Antonio, 4 1/2 m. s. of Gila crossing, same locators.

Mars mine, Estrellas mountains, same locators.

MISCELLANEOUS.

Mechanics Lien.—Josiah Champion against Arthur H. Elliott.

Mortgage.—Henry Schoshusen and wife to Aaron Mason, all that certain parcel of land: the n. w. 1/4 sec. 8, town. 5 s., range 15 e, Gila and Salt river meridian, \$600.

A Remarkable Furnace Run.

The old Globe Copper Smelter, located near Globe, Arizona, has now been running several weeks putting through an average of over 40 tons of ore per day, with a bullion product of 9 to 10 tons, running from 97 to 98 fine. This is one of the famous Water Jacket Smelters made by Rankin, Brayton & Co., of the Pacific Iron Works, and is rated by them as of 30 ton capacity. There is probably no other Furnace in this country or Europe that can show any such result.

Florence Town Site.

FLORENCE, A. T. DEC. 21, 1882.

Notice is hereby given to all concerned that the commissioners to adjust title to Florence Townsite has adjourned until January 15th, 1883, at 10 o'clock a. m.

A. J. DORAN, Secretary.
